

Welcome '09s! Net Impact is a national organization dedicated to making social change through business. At Tuck, we help facilitate communication, collaboration, and coordination among the socially-minded clubs, the Allwin Initiative, and the administration.

We're going to have interesting, educational meetings with special guests every other week throughout the year, and we'll be sending out these fortnightly emails to let you know what's going on around campus and beyond.

We look forward to meeting you this year!

The Net Impact Team
